

Cancer doesn't care who
you are.
But we do.

We want to hear your views
on the care you have received.

Feedback on your experience of cancer care is important to us and will help us see what's working and what needs to improve. We need to hear everyone's views, particularly people from the LGBTQ+ community, who are under-represented in responses.

If you are invited to take part in the National Cancer Patient Experience Survey, please have your say.
